SAFEGUARDING THE AIR OUR CHILDREN BREATHE

NO to further development beyond the area already built in Bulebel

We, the undersigned, are hereby objecting to all development already planned and/or proposed beyond the area already built within the Industrial Zone in Bulebel.

We are asking the Government, Authorities, Agencies, Corporations and Companies to put a stop to already existing plans to take over agricultural land and land which has not been developed, for the extension of the Industrial Zone.

We are asking that the proposal for the development of the area earmarked for the extension of the Industrial Zone as shown in Plan ZN3 of the Local Plan for the South of Malta, be abolished and that this area remains an agricultural zone not meant for development and is given the protection it deserves.
